

REACH DECLARATION

According to REACH, the European Chemicals Agency (ECHA) have produced a list of substances, last revision in 19 of December 2012, that are designated as being Substances of Very High Concern (SVHC) and will become subject to Authorisation.

After analysing the revised List, Amorim Cork Composites declares that do not intentionally add any of those SVHC to our Cork Composition and Cork Rubber agglomerate and to the best of our knowledge the raw materials we use in our materials do not contain the listed substances.

For more detailed information regarding this List, regulations, date and reason for inclusion, please refer to ECHA website:

<http://echa.europa.eu/web/guest/candidate-list-table>

The response provided by Amorim Cork Composites is based upon the knowledge on the raw materials used in the manufacture of our products.

If we may be of any further assistance, please do not hesitate to contact us.
